Date: 07/22/2013

Date of Activity	Sponsoring Organization and Location	Description of Activity	Type of Activity	PDH Units Earned	
07-12-2013	Labs xx. org Portland, OR	Lab's design and procedure symposium: presentation of chaos effect and ways to mitigate with a few strategically placed popsicle sticks.	presentation	1.00	
Instructor:		Discipline:	Event Location:	State Specific:	Duration (hours):
Joe Kidding		Civil	Portland, OR	no.	1.00
Notes:					
Its all in the glue and the hardening time (or lack thereof).					
phone camera photo of agenda is attached.					

Certificate or Training Confirmation: Attachment: 01

Supporting attachments print if selected in the detailed report printout options.

Attachment
01

Attachments can be a photo taken from your smart phone, ipad, android device, or other smart device. The photo can be taken when needed or be placed onto the website from the phones history folder. The logging system can save attachments of images, or a .pdf file.

This photo is of a typical conference brochure showing included training sessions.

Date of Activity	Sponsoring Organization and Location	Description of Activity		Type of Activity	PDH Units Earned
06-13-2013	boxes inc Denver, CO	Attended seminar on structural response to earthquakes and meteor impacts in castles and large stone structures.		webinar (interactive)	7.50
Instructor: Dr. Spock		Discipline: Civil	Event Location: Denver, CO	State Specific: no.	Duration (hours): 8.00
Notes: Castles in Rome survive due to ash content in soil. Theoretical model shows castles and structures in and around Rome are the only surviving structures after large scale meteor shower pummels earth.					

Certificate or Training Confirmation: Attachment: 02

When attachments are chosen to print, they print directly following the training event record. This allows a reviewer to look at training documentation in order without having to go to an appendix of attached documents.

Attachments always print on on separate pages from training event records. These pages are numbers and become part of the detailed documentation when needed.
